Frontend	React.js, Tailwind CSS, Responsive Web Design, Component-Based UI
Web Development	REST API Integration, DOM Manipulation, Async JavaScript, JSON, Browser APIs
Design	Figma, Figma-to-Code, UI Design, Responsive Layouts, Flexbox, CSS Grid
Tools	Git, GitHub, VS Code, Vercel, Netlify

EXPERIENCE

Frontend Developer | Self-Employed

Islamabad, Pakistan | Jan 2022 – Present

- Build responsive websites and web applications using JavaScript, React.js, HTML, CSS, and Tailwind CSS.
- Developed and delivered a complete responsive website for a local client.
- Create interactive frontend features using JavaScript, APIs, asynchronous operations, and browser technologies.
- Develop reusable UI components and responsive layouts for desktop and mobile devices.
- Use Git and GitHub to manage source code and project development.
- Focus on clean, maintainable interfaces and practical user experiences.

PROJECTS

Real-Time Weather

React.js | Tailwind CSS | Weather API

- Built a responsive weather application using React.js and Tailwind CSS.
- Integrated a weather API to retrieve and display real-time weather information.
- Implemented a data-driven interface designed for desktop and mobile screen sizes.

github.com/owaismsd/RealTime-Weather

Ilmaara Website

HTML5 | CSS3 | JavaScript

- Developed a responsive multi-page website for a local client.
- Built interactive frontend elements and responsive layouts across different devices.
- Delivered the completed website as a client project.

ilmaara.com

Personal Portfolio

React.js | Tailwind CSS

- Built a responsive personal portfolio using React.js and Tailwind CSS.
- Developed sections for projects, skills, and professional information using reusable UI patterns.
- Deployed the portfolio using Vercel.
